S1N1 Group composition

S1_01 Number of informants:

S1012 How many women are in this group?

S1013 How many men are in this group?

S1014 How many of these informants are local leaders?

S1015 How many of these informants are teachers

S1016 How many of these informants are health care workers

S1017 How many of these informants are farmers

S2N1 Demographic and Community Type Information

S2_01 How many households does this village have?

S2012 For quality control, repeat the previous value?

S2_03 Does any of the following safety nets schemes apply to this village

- VUP direct support
- VUP public Works
- VUP access to financial services
- Ubudehe credit scheme/loan (individual or group)
- Girinka (one cow per family)
- One cup of milk per child
- Others
- None

S2030 Other schemes

S3N1 Community infrastructure

S3_02 Is there any functioning primary school in this village?

- No
- Yes

S3022 If not, then how far away on average is the nearest functioning primary school? (minutes)

S3022_2 For quality control, repeat the previous value?

S3_03 Is there a functioning health facility in the village?

No

Yes

S3032 If not, then how far away on average is the nearest functioning health facility? (minutes)

S3032_2 For quality control, repeat the previous value?

S4N1 Markets

S4_01 Is there a market in this village?

No

Yes

S4022 Is this the main market your community mostly interacts with?

No

Yes

S4023 If this is not the main market for the village or there is no market at all, how far is the main market your community mostly interacts with?

S4023_2 For quality control, repeat the previous value?

S4024 Is the road to the main market for your community accessible all year round using transport means other than walking?

No

Yes

S4025 If no, which months is it not accessible?

- January
- February
- March
- April
- May
- June
- July
- August
- September
- October
- November
- December

S4026 What are the main challenges your community faces related to food markets?

- Low production from last season
- Not enough supply (not enough food available on market)
- Not enough demand (can't sell crops at market)
- Loss/reduction of employment of household
- Reduction of income of household members
- High market prices for non-food items
- Unusually high food prices
- Insecurity/unrest/Violence
- Market too far
- Bad road to market
- Others
- No challenges

S4026_0 Other Challenges

S5_01 Three Most consumed cereals

- Wheat
- Maize
- Sorghum
- Rice
- Other

S5010 Other Cereal

S5012 How do you rate the current availability in the martets that your community interact with?

- Sufficient
- Moderately sufficient
- Low (insufficient)

S5013 How do you rate the current prices of these commodities compared to normal?

- Normal
- Higher that normal
- Lower than normal

S5_02 Three Most consumed tuber and roots

- Sweet Potato
- Irish potato
- Cassava
- Taro
- Yam
- Banana cooking
- Other roots or other cereals

S5022 How do you rate the current availability in the martets that your community interact with?

- Sufficient
- Moderately sufficient
- Low (insufficient)

S5023 How do you rate the current prices of these commodities compared to normal?

- Normal
- Higher that normal
- Lower than normal

S5_03 Three most consumed pulses and legumes

- Beans
- Peas
- Soya
- Ground nuts
- Other pulses, specify:_____

S5032 How do you rate the current availability in the martets that your community interact with?

- Sufficient
- Moderately sufficient
- Low (insufficient)

S5033 How do you rate the current prices of these commodities compared to normal?

- Normal
- Higher that normal
- Lower than normal

S5_04 Three most consumed vegetables

- Tomato
- Cabbage
- Amaranthes
- Other vegetables

S5042 How do you rate the current availability in the martets that your community interact with?

- Sufficient
- Moderately sufficient
- Low (insufficient)

S5043 How do you rate the current prices of these commodities compared to normal?

- Normal
- Higher that normal
- Lower than normal

S6N1 Daily labor wages

S6_01 Currently, what is the daily wage for unskilled agricultural labour?

Niba ntabahinzi baba muri uyu mudugudu wandike 77

S6012 For quality control, repeat the previous value?

S6013 How does that wage compare to normal at this time of the year?

- Normal
- Higher than normal
- Lower than normal

S6_02 Currently, what is the daily wage for Unskilled non agricultural labour?

Niba nta mirimo ya ba nyakabyizi baba muri uyu mudugudu wandike 77

S6022 For quality control, repeat the previous value?

S6014 How does that wage compare to normal at this time of the year?

- Normal
- Higher than normal
- Lower than normal

S7N1 Agriculture

S7_01 Do households in your village community practice any agriculture activities?

- No
- Yes

S7012 Which commodities do people usually grow in this village?

- Wheat
- Maize
- Sorghum
- Rice
- Other cereals
- Sweet Potato
- Irish potato
- Cassava
- Taro
- Yam
- Banana cooking
- Other roots and tubers specify: _
- Tomato
- Cabbage
- Other vegetables
- Banana (wine)
- Banana fruit
- Passion fruit
- Pineapple
- Other fruit specify: _____
- Beans
- Peas
- Soya
- Ground nuts
- Other pulses, specify: _____
- Tea
- Coffee
- Tobacco
- Sugar cane
- Other cash crops specify: ___

S8N1 Shocks

S8_01 Did your village experience any shock in the past 12 months?

- No
- Yes

S8012 Based on severity, what are the main shocks/problems did households in this village face in the past 12 months

- Drought/irregular rains, prolonged dry spell
- Floods
- Landslides and Mudslides
- Unusually high level of crop pests & disease
- Unusually high level of livestock diseases
- Unusually high level of human disease/EPIDEMIC
